Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1.   (original) A computerized method of providing and allowing secure sharing of account information between users of an Internet information aggregation system comprising:

a grantor user creating one or more view pages,

storing the grantor's view pages in a view pages database of the Internet information aggregation system,

assigning a unique visitation access code to each of a plurality of grantee users of the Internet information aggregation system,

storing said visitation codes in a database of the Internet information aggregation system,

said grantor selectively obtaining said visitation access codes from one or more of said grantees, and

said grantor using said visitation access codes to selectively grant visitation access to one or more of said grantor's view pages to one or more of said grantees.

Claim 2.   (original) The method of claim 1, wherein said grantor's view pages include

a public view that displays non-sensitive information,

a private view that displays sensitive information, and

an advisor view that displays selected account information pertaining to obtaining advice from an advisor, such as a financial, health, or travel advisor.

2

Claim 3.   (original) The method of claim 1, wherein said step of using said visitation access codes to selectively grant visitation access to one or more of said grantor's view pages to one or more of said grantees comprises:

receiving input from said grantor for granting visitation access,

verifying that said grantor is authorized to grant visitation access,

if said grantor is authorized to grant visitation access, presenting a graphical user interface for granting visitation access,

receiving input from the grantor for a visitation access code of a selected grantee,

determining whether said grantor entered a correct visitation access code,

if said grantor entered a correct visitation access code, displaying a list of said grantor's available view pages, and

receiving input from said grantor for selectively granting access to one or more of said grantor's view pages to said selected grantee.

Claim 4.   (original) The method of claim 3, further comprising, in said step of selectively granting access to one or more of said grantor's view pages, selectively assigning one of three levels of access for each said view page for which access is granted, said level of access selected from the group consisting of Read Access, Refresh Access, and Full Access.

3

Claim 5.   (currently amended) The method of claim 1, further comprising said grantor selectively ~~revoking~~ granting visitation access privileges to one or more of said grantees.

Claim 6.   (original) The method of claim 5, further comprising, in said step of selectively granting access to one or more of the grantor's view pages, selectively granting a right of Read Access to said selected grantee, wherein said Internet information aggregation system permits said grantee to view account information displayed on the grantor's view page but
